

Everything Is Possible

Established in 1998, HugoNet has established itself as a market leader with many products and services that cater for all their clients needs along with a very strong focus on customer support. Our services range from competitive dialup and broadband connections through to domain name registration and web site hosting.

HugoNet is also proud to announce the launch of its latest technical venture HugoVoIP. HugoVoIP is a revolution in the way that you can communicate with your friends, family, and work colleges. HugoVoIP is a simple, easy to use Voice over Internet Protocol technology. Using a new or existing broadband connection, along with compatible hardware, you can make ultra cheap calls to anywhere in Australia, and even FREE! calls to other HugoVoIP subscribers.

HugoNet's products and services are extremely competitive in the market place.

Broadband

HugoNet Broadband is the cheap, easy, reliable and hassle free way of getting you and your family online. With a great range of internet plans, we are confident that you will be able to find a plan that will suit you nicely. At HugoNet, we pride ourselves on using only the highest quality equipment, and training our staff to the highest levels, so that your experience with us and on the Internet is the most pleasant and enjoyable as possible. HugoNet broadband is available to a large number of customers Australia wide, and is available in a range of speeds to meet your specific requirements.

- >> ADSL line filters are required for each phone / fax device operating simultaneously on the same phone service as your broadband ADSL connection. One ADSL filter is included with all modems provided by HugoNet.
- >> Additional ADSL in-line filters \$19.95ea
- >> All modems provided by HugoNet are pre-configured for your ease of use.
- >> An optional Static IP Address is available for \$5.50 per month or \$60 for the year.
- >> HugoNet scans all incoming emails to your HugoNet email address for viruses and spam to help protect your computer. This service is provided to you free courtesy of HugoNet
- >> ADSL on-peak times are between 7am to 1am and off-peak is 1am through to 7am
